

Carol Jago's Suggestions for Your Classroom Library

Welcome to my list of suggestions for your classroom library. It is not meant in any way to be a perfect list. Only you know what titles will be most appealing to your students and which books might be problematic in your school community. I have compiled here a list of books that I believe can open up the world to middle and high school readers.

Some of these stories include scenes of violence and/or language that might offend. That said, I have read every one of these books and believe the scenes and language contribute importantly to the authors' intent and message.

Thanks for all you do to bring books into your students' lives. Reading helps us be more fully human.
